

# ENZIS PACKAGING INSTRUCTIONS

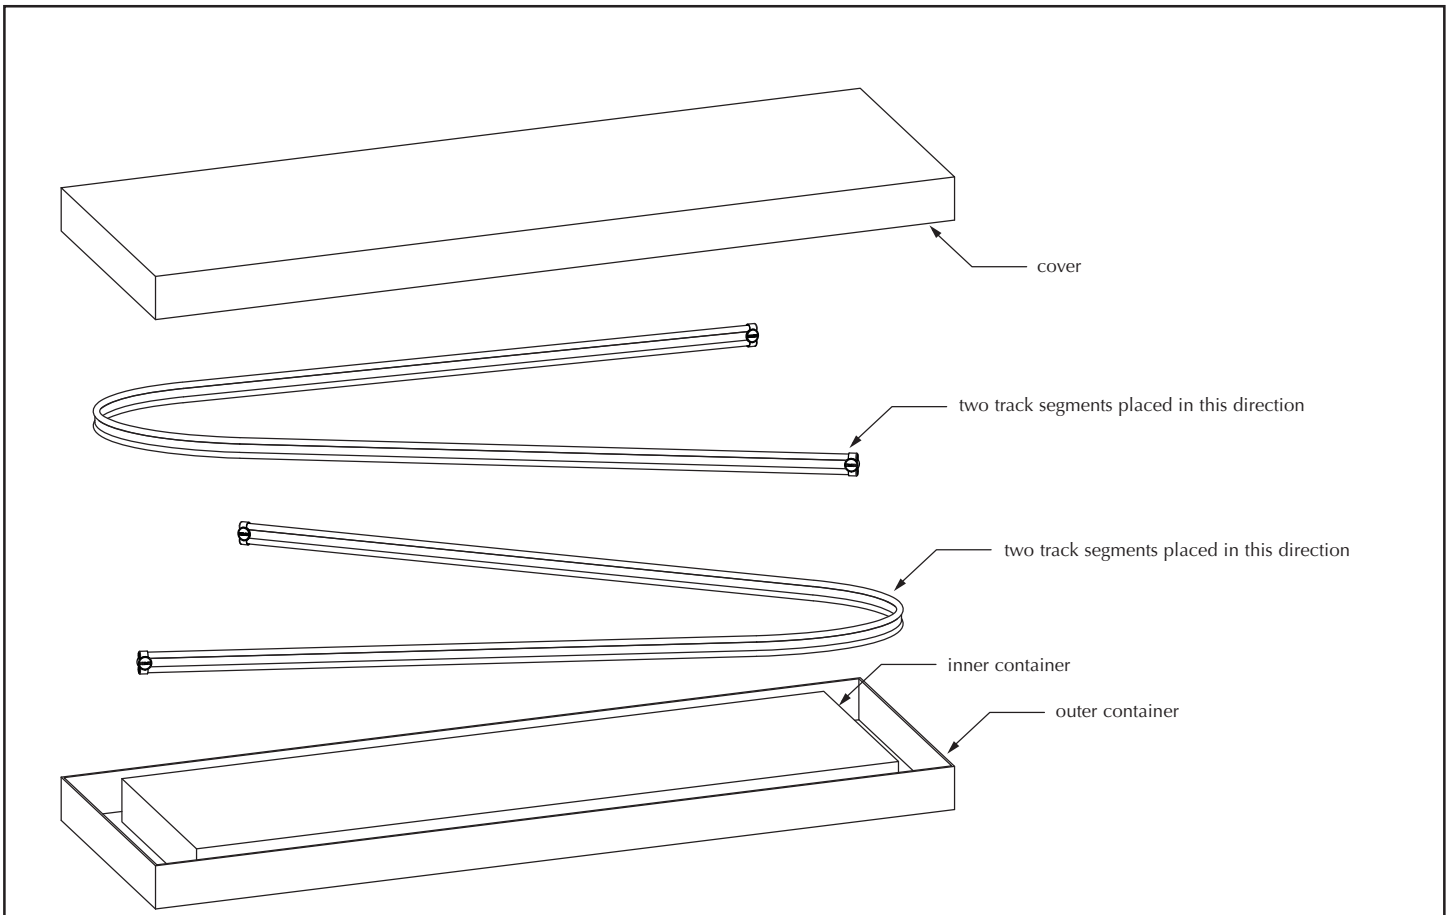

## TRACK

ART.-NO.  
140 006 matte chrome, 72"  
140 012 matte chrome, 144"

## PACKING INSTRUCTIONS

- packaging consists of three main components.
  - A) 1880mm x 610mm x 102mm outer container with cover
  - B) 413mm x 121mm x 102mm inner container
- bend four track segments to fit the outer container.
- place the inner container in the center to hold the tracks in place.
- if smaller enzis components are being shipped with the track they may be placed inside the inner container before taping onto outer container.
- once everything is in place the track and inner container should be taped to the outer container.
- cover the box and tape shut for shipping.
